Did You Know . . .

Benjamin Franklin loved taking Air Baths to refresh his mind, body and spirit. Taking an Air Bath like Ben's is simple. Just stand in front of a window, open it, take off all your clothes -- and enjoy!

John Adams and Thomas Jefferson both died on July 4, 1826, the 50th anniversary of the approval of the Declaration of Independence, the document each of them held dear.

Betsy Ross garnered the nickname "The Little Rebel" for more than just the treasonous act of flag making. During the winter of 1778-79, Betsy was paid by the Continental Congress for making musket cartridges in her home!

George Washington's dentures were not made of wood. They were made of natural teeth set into a framework of hippopotamus ivory. Some historians believe that the denture teeth were human, others believe they were crafted from walrus or elephant ivory.
